THE INTRODUCTION.

S O O N as bright Phœbus with revolving Light,
Removes the long Obscurity of Night,
Rejoyc'd the Farmer sees the lengthning Days,
Which to a Height his Expectations raise;
Even so we Britons, when involv'd in Night,
By Jesuits Envy. and by Tory Spite.
Our G O D gave us a King, just, brave and free,
Who sav'd our Lives and gave us Liberty :
'Twas G E O R G E the First that sav'd us from the Jaws
Of Tories Folly, and Rome's destroying Paws ;
Now G E O R G E the Second does his Loss repair,
And acts as worthy G E O R G E the First his Heir.
O Liberty ! the Tribute of a Breast,
To thee devoted, and of thee possess'd,
What's Human Glory to the being Free !
That Man's sincerely blest hath Health and Thee.
The L O R D propitious still to our Salvation,
Hath safely brought the Prince into our Nation,
To rejoyce good Subjects, and adorn a Court,
And distant *English* Liberty support :
His Wisdom and Virtue gives to understand,
He'll bridle Faction with a gentle Hand.
Prince *William* too of every Grace possess'd,
As is by High, by Low, by all confess'd. [rise
Thus with this illustrious Line shall the *British* Genius
And with united Glory both shall reach the Skies:
Our Trade shall prosper, and our Wealth encrease,
And Power extended have the Bliss of Peace.
Ages unborn this Royal Race will bless,
And ev'ry generous Soul their Worth confess.

The foregoing Table explained.

NOTE, that the Moon's Age being taken notice of by the Rule in this Table, you may obtain the time of High-water at all the Places above-named. Observe when the Moon is one or sixteen Days old, it is High-water at London, Tinnmouth, Martlepool, &c. At 3 o' Clock and 15 Minutes past, observe the time of the rest, which is plain to the meanest Capacity. The Day of the Moon's Age you have on the 6th Column in every left hand Page of the Almanack.

The Table of the Terms Explain'd.

NOW every Term hath part, or all those Returns, viz. *Craftins*, *Octabis*, *Quindene*, *Tres*, *Mense*, and *Quinquas*. Every Return also has a *Basis* or *Know-day*, from whence they take their reckoning, the Signification of which are; *Craftins* is the Morrow after the *Basis*, as *Craftins Trinitatis* is the Morrow after *Trinity-Sunday*, it being the Day of Denomination; *Octabis* is eight Days inclusively; *Quindene* is fifteen Days after, and *Tres* three Weeks, *Mense* a Month, and *Quinquas* five Weeks after.

Note, Now every one of these Returns has four Days to consist upon; the first whereof has double signification, for the one is the Day of Return, the other the Day of Effoyne, for the Defendant in a Personal Action, or the Tenant in a real Action to be effoynd'd, the second is the Day of Exceptions for the Plaintiff, to lay an Exception if no Effoyne be cast, that the Defendant shall not be effoynd'd or amerced; the third is *Returna Brevinus*, or Day whereupon the Sheriff must return the Writ, and the fourth is the Day of Appearance for Parties and Jurors in the Court of Common-Pleas. But if any of these Days fall on a Holyday, that is no Court Day, as in *Easter Term* on *Holy Thursday*, or upon *St. John Baptist* in *Trinity Term*, in *Michaelmas Term*, on *All-Saints*, or *All-Souls Day*: and in *Hilary Term* on *Candlemas Day*: Or upon any *Sunday*, which are no Court Days then must the next Day following serve for both; as if the Effoynd Day, and Day of Exception, and so of the rest. These Days are of most use in the Common Pleas, where all Suits commence, &c. but for *Lutitais*, or other Process upon a Bill certain, it is upon a Day certain, as *Die Luna prox. post Pasch.* which always is reckoned from the Effoynd Day. In the Chancery Court none of these Returns are used, but only the Day of Appearance, which is *Quarto die post*: But if a *Capias*, *Exigent*, *Scire-Facias* or *Distingas*, be executed after the Effoynd Day, by the Sheriff, or a Commission set upon, out of any of the aforesaid Courts, after the said Effoynd Day, 'tis neither justifiable nor warrantable.

*Lo! here's a Trade surpasseth all the rest,
No Change annoys the Lawyer's Interest:
His Tongue buys Lands, builds Houses without Toil;
The Pen's his Plough, the Parchment is his Soil:
Him Storms disturb not, nor Militia-Bands;
The Tree roots best, that in the Weather stands.*

All hail! my Masters, banish panick Fears,
 And Hopes of better Times now entertain;
 The Cloud's dispell'd, which threatned us some Years,
 And England prospers whilst Great Brunswick reign;
 He dispels our Darknes, and our Minds unclog,
 From Popish Mist, degenerate into Fog.

Astrological Observations.

The first Day of this Month 1682, was born the Excellent Queen CAROLINE, and is now aged 48 Years.

Some very considerable Con-
sultations are yet depending,
New Moon 7 day at 7 at night,
and tho' we may have some flat-
tering Appearance towards re-
conciling Differences, yet we
have Cause enough to fear no
such thing will be as yet ef-
fected, but a great Uncertainty
in Publick Affairs.

First Quar. 15 day at 4 aftern.

The greatest Politicians and
Statesmen now find Work
enough, and many Embassies
and Agents are now dispatched
from one Country to another.

Full Moon 23 day at 8 morn.

The Emperor and some
Princes in the North, seem ve-
ry uneasy, and a Storm seems
to threaten some European
Powers.

Last Quarter 30 day at 3 morn.

Moore. April hath xxx Days.

Where was all our Church Quixots in a late Reign,
 When bare-fac'd Pop ry 'mongst us did appear?
 Who of the Church's Danger did complain,
 When Popish Idols were worship'd every where?
 Good Protestants awake, and change your Notes,
 Keep back the Knife from your own and Chil-
 drens Throats.

Astrological Observations.

Our Passions perpetually run
in a Circle of Vicissitudes, and
our own Thoughts are the Mould
of our Happiness or Misery.

New Moon 3 day at mid-p.

Various Reports from most
Parts of *Christendom*; and Meet-
ings or Treaties are expected to
consult and debate of high Mat-
ters, tending to the composing
of many and great Difficulties.

First Quarter 14 day 3 morn.

We are now in great expecta-
tions of the happy Effects of
some former Consultations, and
London continues free from casual
Accidents.

Peace and Tranquillity to us of

secured in some *European* Courts.

Atheists and Papists readily agree
 To follow the Scent with a full mouthed Cry;
 And with these join the unthinking Debauchee,
 And to his own Destruction does unawares comply.
 Let them together go without Retrieve;
 But for well-meaning Zealots I must grieve.

Astrological Observations.

This will be a very busy Month, and Designs of very great Importance are now acted.

New Moon 4 day at 2 after.

Great things are promised in Foreign Parts, and such too that many Years before have not produced: We find the World is a Lottery, and that a Man may be made or undone in a Moment.

First Quarter 12 day at 2 after.

Now all People are in great Expectation of some novel things shortly to break out, and we have plenty of Intelligence from all parts of Europe.

Full Moon 19 day at 9 morn.

We now find many Princes act with great Celerity in defending themselves on all Occasions.

Last Quarter 26 day at 3 morn.

No very welcome News as yet. 6 Austria, Lisbon, &c. in very different Circumstances.

July hath xxxi Days.

Young Men I pray study to clear your Sight,
Consult those that liv'd in the Days of Yore,
Former Experience may set you right,
If you consider what they've done before.

Their Projects are the same; a Jesuit
Is still the same, but sharper in his Spite

Astrological Observations.

New Moon 2 day at 8 night.

Various are the Configurations of the Planets this Month: And as various will be the Minds of Men. The Labour of these present Times are great. And must be performed by many Hands. First Quarter 10 day at 3 mor.

This will doubtless be a Month of much Business; and many considerable Matters will be now controverted.

Full Moon 16 day at mid-ni.

Male-contented Spirits are now too busy to foment Lies and false Reports, which may be of very ill Consequence. An eminent Commander acts with great Prudence.

Last Quarter 24 day at 8 morn.

Smart Work appears towards the End of the Month; and some European Nations under great Uneasiness from the Turks.

September hath xix Days.

Look back, and see what did our Factions dress
In former Days, of which we now complain:
Our Laws were murder'd, our Nation in Distress,
Our Lives and Liberties at Bar arraign;
Whose furious unnatural Quarrelling
Ruin'd a pious well accomplish'd King.

Astrological Observations.

Here is some Good in Agitation, and great Mischiefs in perpetration. Treating and Conventions in some Places, Bickering and Trouble in other Places.

First Quarter 7 day at 9 at ni.

This will be a very busy time, and great and considerable Matters are now controvered, tending to the good of *Europe*.

Full Moon 14 day at 11 at ni.

We may now find that some Creatures, in the Habits of Religious Men, may appear this Month, and broach false Doctrines amongst the great ones, for which they will have time enough to repent.

Last Quarter 22 day at 10 ni.

The Heavens portend Peace and Tranquility to our Nation. A flourishing Trade, and happy Return of Shipping, to the great Satisfaction of our worthy Merchants.

New Moon 30 day at noon.

November hath xxx Days.

Twice hath God's Providence this Nation blest
 In this Month from Popish Tragedy,
 Acted by Men that never are at rest,
 On whom we ought to have a watchful Eye :
 And very watchful too, since in Disguise
 To make us wound each other, they strange Tricks devise.

72. A great Imperial Crown broken into Pieces, and with many other little Crowns also.
73. Several Men breaking their Swords, and forging them into Spades, Mattocks, and such like.
74. A great Navy of Ships, bearing the Arms of England, France, and Ireland; over the Navy, *Victory in Triumph*.

6 *Of the Eclipses this present Year, 1730.*

WHich are in Number Five, of which Two only will be visible to us; however all the Eclipses happen in the following Order, viz.

1. The First is an invisible Eclipse of the Sun on *Wednesday* the 7th Day of *January*, at 6 in the Evening.

2. The Second is a small visible Eclipse of the Moon on *Friday* the 23d of *January*, the Beginning is at 38 min. after Two in the Morning, the Middle 34 min. after Three and the End at Half an Hour after Four in the Morning; it will not, when in the greatest, be above 3 Digits eclipsed, and the whole Time of Duration is 1 hour, 52 min.

3. The Third is a small visible Eclipse of the Sun, *Saturday* the 4th of *July* in the Morning, when the Sun will appear to rise at 4 of the Clock about 3 Digits eclipsed, and the End will be about 20 min. after.

4. The Fourth is an invisible Eclipse of the Moon, *Saturday* the 18th of *July*, about 4 in the Afternoon.

5. The Fifth and last is an invisible Eclipse of the Sun on *Monday* the 28th Day of *December*, between 10 and 11 in the Forenoon.

The visible Eclipse of the Moon is celebrated in *Dominion of Mars*, and in the Sign *Leo*, the Ascendant of *Italy*, *Rome*, and some Parts of the *German Emperor's* Dominions, and its Signification, say Authors, is of very sad Import to the Places, as denoting the Death or Exile of some famous Monarch, great Wars, Burning of Towns, great Mortality of Cattle, Scarcity of Provision, and every thing tending to the Misery of the Places concerned. The visible Eclipse of the Sun falls in the Ascendant, and in the Sign *Cancer*, the Ascendant of *Scotland*, *Holland*, and great Part of *Italian Territories*, as *Venice*, *Genoa*, *Milan*, &c. and signifieth a sickly and unhealthy Time, many Rumors, Discontents, great Seditions and Expectations of great Floods, Inundations, &c. and these are the Significations of the two visible Eclipses, and the Places concerned are these here-mentioned and some others; but as for other Eclipses I shall say nothing of their Effects, because some good Authors will not allow of any in those Places where they are not visible.

Observations

1730.

Moore, 1730.

Observations on the Four Quarters of the Year, and first of the Winter.

Which takes its Beginning December the 10th Day 1729. at 34min. after 6 at Night, at which Time Deg. of *Leo* ascend the Horizon, and 9 Deg. of *Aries* on the Mid Heaven, or Tenth House, *Saturn* in the 8th in *Scorpio*, *Jupiter* on the Ascendant Retrograde, *Mars* on the 4th of the 4th, *Sol* on the Cusp of the 5th, *Venus* and *Mercury* in the 5th in the Sign *Sagittarius*, and the *Moon* in the 6th in 20 deg. of *Capricorn*, separating from the Cusp of *Saturn*, and applying *ad Vacuum*; there are some turbulent Positions attending this Ingress, which denote much Rancour and Malice amongst great and noble Men, and such a Height, that they shall endeavour the Extermination and Destruction of one another, by Violence and Force of Arms; besides the visible Lunar Eclipse before-mentioned falls in this Quarter too, which is an Augmentation of former Disorders, and much Violence appears in the World the Time of Year considered: However we (as God) are not so deeply involved in the Disposition of these Times as are some other Nations, viz. *France, Germany, Spain, &c.*

Rome tott'ring long, - laden with Errors Store,
At last must fall, and head the World no more.

Of the Spring Quarter.

That takes its Beginning on Monday the 9th Day of March, at 42min. after 8 at Night, 28deg. of *Libra* ascends in our Horizon, and 8 deg. of *Leo* is on the Mid Heaven, *Saturn* in the 5th in *Pisces*, *Jupiter* in the 12th in *Cancer*, *Mars* in the 12th in *Libra*, the *Sun* in the 12th as also is *Venus* in 25 deg. of *Pisces*, and *Mercury* in the 4th of the same Sign, in the 4th House, the *Moon* is ex-
posed upon the Western Horizon, departing from the Opposition of *Mars*, and applying to the Square of *Jupiter*; nevertheless this Ingress is attended with some serene and agreeable Rays, as the Trine of *Saturn* and *Jupiter*, the Trine of the *Sun* and *Jupiter*, and the Trine of *Jupiter* and *Venus*: So that one would think, that at this time the

publick Affairs of *Europe* should be in a more quiet and settled Posture than they were in during the Winter Quarter; but tho' *Jupiter* be thus defended by the auspicious Rays of *Sol*, *Venus*, and *Saturn*, he is also beheld by *Mars* and *Luna* with a malignant Square, and all Three in Cardinal Signs, and *Jupiter* himself Retrograde in the 9th House, that it's to be feared some hot-headed Men of no Virtue will be fomenting and stirring up Strife and Discord amongst the Grandees of several Nations, to the Betraying of themselves and Posterity, and abusing a good and righteous Cause.

Fain would I sing of *Europe's* peaceful State,
But can't, alas! so very hard's our Fate:
For *Spanish* Gold good Counsels are delay'd,
Imperial Guilt doth our Happiness invade.
But as for Jesuits, those Sons of Hell,
Who delude bad Men, and prompt them to rebel
Against their lawful Prince, the Lord's Anointed,
May they like Dogs be hang'd, and always disappointed

Of the Summer Quarter.

WHich commenceth on *Wednesday* the 10th Day of *June*, at 56min. after 7 in the Evening, when the deg. of *Sagittary* ascends, and 1deg. of *Scorpio* culminates. *Saturn* is in the 2d House in the Sign *Pisces*, *Jupiter* is on the Cusp of the 8th in the Sign *Leo*, *Mars* is in *Libra* on the 9th, the *Sun*, *Venus*, and *Mercury* are in the 7th, and the *Moon* is in the 8th, separating from the Sextile of the *Sun* and applying to the Sextile of *Venus*, and Opposition of *Saturn*; here seems to be more religious Commotion cut out, and the cut-throat Priests and Jesuits, those ravenous Brats of a bloody Mother, are now very active to foment Differences, increase Jealousies, and stir up Sedition and Rebellion, we may also this Quarter expect to hear of important Transactions in those Places subject to the Signs *Leo* and *Libra*, as is *Italy*, *Bohemia*, *Austria*, *Livonia* and Part of the *Turk's* Dominions, the Ascendant of the Ingressional Scheme is the Sign *Sagittary*, the same as the Ascendant appropriated to *Spain*, and *Jupiter* Lord thereof, is upon the very Cusp of the 8th House, which shews

that Nation to be in a very unhappy Condition, and that will certainly be very much involved in the Calamities the Times of what Nature so ever they be, whether tending to military Depredations, or to the Obstruction of Trade and Business, besides an additional Misfortune which seems to threaten that Nation more than any other in Europe, viz. a great Sickness and Mortality of Men & Beast. The Glutting of the Sword makes Thousands mourn, Int'rest and Church Affairs now take a Turn.

Of the Autumnal Quarter.

It begins Astronomically, on Saturday the 12th Day of September at 9 a Clock in the Morning, when 2 deg. of Scorpio ascends, and 13 deg. of Leo is on the Mid-Heaven, Saturn is on the Cusp of the 5th Retrograde in 17 deg. of Aries, Jupiter is in the 10th in 28 deg. of Leo, Mars is in 5 deg. of Leo, in the 2d House, the Sun is in the 11th, Mercury in the 12th, and Venus in the Ascendant, the Moon is in the 4th House in 15 deg. of Aquarius, departing from the square of Venus, and applying to the Trine of Mercury; this is a very active Ingress, and we may now expect News in several Parts, giving Relations of Hostilities and Violence acted by Men in Arms. The Counsels of Princes and Nations are mightily divided and delayed by those that are enemies to the Peace of Israel, and tho' we are now got to the declining Part of the Year, yet will this Quarter be full of Action, as well as News; Germany is in great confusion, Italy in A maze, but Spain is in great Distress, that Prince and Nation attended with many and great calamities, the Polanders may now have Cause to repent of their cursed barbarous and inhuman Murders committed upon the Protestants at Thorn, by the Intligation of the Incendiaries and Blood-suckers of Europe, the vile crew of Jesuits, those Enemies of Christianity, and Friends of the Devil.

The

The Miseries of a Popish Government.

Popery in its bare self is bad enough, without any Thing to inflame it, and make its fiery Zeal burn the fiercer. Put Popery returning to *Britain* under the Conduct of the Pretender, a Pupil of the Jesuits, and Tool of *Rome*, will have many terrible Ingredients in it: And as Her late Majesty Queen *Ann* in her Speech to the Parliament, *April 1st, 1708*, says, All that is dear to us, must be irrecoverably lost, if ever the Designs of a popish Pretender, bred up in the Principles of the most arbitrary Government, should take Place, there will be a Revenge for former Injuries, a Demand of vast Arrears due (as we are told) both to *St. Peter's* Patrimony, and to those who have ventur'd so much in the Chevalier's Cause, and subsidised him at so great Expence; we shall often hear to our Cost the Memento the late French King gave him upon his design'd Invasion, 1708. when he presented him with a Sword, Remember, says he, if you prove successful it is by a French Sword, but whether it be a French, Spanish, or Italian Sword, if it prevail, to be sure our Blood must satiate it, and our Treasures must pay for it. In short, Popery, with all the Circumstances that would attend it, in the Hands of a four Saturnine Bigot (and such is the Pretender in his natural Temper known to be) would be seven-fold more Popery, than in its Abstract self; and should it break in amongst us (which God forbid) we might expect a fresh Accomplishment of what was spoke concerning *Jerusalem* of old, *Mat. xxiv, 21*. Then shall be great Tribulation, such as was not from the Beginning of the World to this Time; and except those Days be shortened, there shall no (Protestant) Flesh living be saved. Nor must those wretched Tools, who abandon all Reason, Religion, and Love of their Country, to espouse so dishonourable a Cause, expect any better Quarter, they should remember from the Instances of the *Massacre*, the *Paris Massacre*, the late bloody Execution at *Thorn*, and from infinite other Examples of Horror, the natural Effects of Popish Principles, which take such deep Hold of a Popish Conscience, that nothing can rescue it. A Popish Prince is bound by all that is sacred to extirpate by Fire and Sword his Protestant Subjects, whom they falsely call Hereticks; and if he forbear, the Pope will excommunicate, curse, depose, and damn him.

They should also remember how the Council at *Constance* kept their Promise to *John Hus*, and *Jerom of Prague*, both whom they burnt after solemn Assurances of Safety; they should remember the Honour and Fidelity of the *French* King and Court to the *Huguenots*; of *Lewis* the XIVth to his Protestant Subjects, who set the Crown on his Head, and were rewarded with Dragooning and the Gallies for their Service. They should also remember the Gratitude of Our Popish Queen *Mary* to the *Suffolk* Men, who, having ventured all in her Service, pleaded her Promise to preserve their Religion, but was answered, They should have the Honour of being the first Martyrs; and to that famous Protestant Judge *Hales*, who stood up for her Title, in Opposition to *Lady Jane Gray*, and yet was afterwards degraded, imprisoned, and most miserably used: Surely, it is needless to remind them how well King *James* kept his Promises and Engagements to the Church of *England*, after they had so zealously espoused him, he took large Steps to accomplish his Queen's Hopes; for when that incorrigible Judge *Jefferies* was at his Butcheries in the West, the Queen told her Attendants, that by *Christmas* following she hoped to dine all the Protestants in *England* for Half-a-Crown. In a word, there is no such Thing as Faith or Gratitude to be expected from Popish Prince towards Protestants, and they who rely on it will soon see themselves wofully disappointed, and that what the Queen Regent of *Scotland* said in Justification of her so frequent violating her Promises in true Popish Divinity, viz. That Faith is not to be kept with Hereticks; and that should she kill all her Protestant Subjects she only act like a most dutiful Daughter of a holy Mother.
